

## **Discount Funding Associates is Truly a Mortgage Leader Since 1979**

*Why not deal with experienced Mortgage Professionals when seeking your next mortgage? Imagine a mortgage loan that is suited to your specific needs. DFA can deliver!*

(PRWEB) March 24, 2005 -- Since 1979, Discount Funding Associates has obtained mortgage loans for borrowers in many states at competitive rates and terms. Andrew Liebowitz and Stephen Mogelesky have crafted an organization that is home to the worlds finest loan officers in the country. "It is our mission to deliver what we promise in a timely fashion" says Andrew Liebowitz. There are so many programs that are geared towards consumers that have difficulty proving their income as well as for perspective borrowers with marginal credit. For consumers that are seeking the best rates in the marketplace, Discount Funding Associates shines through again. "Banks often sell their own services. We have a plethora of lenders and investors to choose from and we utilize the most modern means of financing at all times. Your goals and objectives are our priority. This is what separates us from the pack" states Liebowitz.

The process is painless and productive at Discount Funding Associates. First, there is a prequalification which leads to a pre-approval. Each loan officer reviews the credit with a loan manager and the borrowers profile is matched with the best matrices from top lenders. Only the best rates and terms are ready to be quoted. If the consumers are on board with the program, the official process begins. "Consumers will see that what we disclose is what you will always get with no hidden surprises in the end", says Liebowitz. Discount Funding Associates closes with precision and confidence. "What can take eight weeks elsewhere, can be done in 10 business days at DFA", says Andrew Liebowitz.
